DETAILED ACTION

- I. Rejection of claims 23-32 under 35 USC 112, 2nd paragraph will not be maintained in light of amendment filed 10/17/06. The range within range issues have been corrected by the deletion of "phenyl" and "alkyl carboxylate" from the claims.
- II. Obviousness Double Patenting type Rejection will not be maintained in light of amendment filed 10/17/06. A terminal disclaimer over USPN 6420648 has been filed to overcome double patenting rejection on record.
- III. New Rejections

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 32 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 32 recites the limitation "S7 ... are alkyl" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim. S7 cannot be an alkyl group.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1616

Claims 23,26,27,30 and 31 are rejected 35 U.S.C. 102(b) as being anticipated by Inhoffen et al (Tetrahedron Letters, 1967, vol. 23, pp. 2185-7). Inhoffen teaches the instant compound of formula X when S7,S13 together = double O; S8 = S14 = Ethyl (neither is H); S1-S6, S9-S12 = H and Ethyl; M is present; and K1-K4 = N. See abstract.

Claim objection

Claims 24,25,28,29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach or suggest the instant compounds of formula X wherein a) S9 and S11 = trans-substituted linking groups Q1 and Q2 or b) S10 and S12 = trans-substituted linking groups Q1 and Q2 or c) M = Zn, Mg, or absent.
